

Build your OWN RAD TERMINAL!

- 1) GO TO "Quick Start Ham Radio" CHANNEL on YouTube.
- 2) Visit RADENGINEERING.TECH for general information.
- 3) GO TO js8call.com and download a version of this application compatible with your operating system.
- 4) If you have a SSB CB radio? - you can run JS8 with all its features.
- 5) If you have an SDR? - you can run a listening station for our NOTES system.
- 6) If you want a copy of the (beta) NOTES software? - contact: cto@radengineering.tech
- 7) Form local digital CB clubs!
- 8) Build a marketing business using NOTES and JS8CALL!
- 9) ... and all the other dreams not yet dreamt ...
